### **DETAILED ACTION**

#### Election/Restrictions

1. Applicant's election of Group I, claims 1-9,24-32, and 46-54 in Paper No. 6 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

#### Information Disclosure Statement

2. IDS filed on August 8, 2002 has been considered except for "Practical Query by Humming", p. 333-342, (N. Kosugi et al). An article entitled "Practical Query-By-Humming" (p.15, Information Sharing Technologies, no publication date) was provided however because the citation information was not consistent the article was not considered.

#### Specification

3. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

## Claim Rejections - 35 USC § 112

- 4. The following is a quotation of the first paragraph of 35 U.S.C. 112:
  - The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
- 5. Claims 1-9, 24-32, 46-54 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a

way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Independent claims 1,24,46,54 recite the limitation "predicting desired access to one or more media files based on the analysis". In the specification (page 16, lines 1-3) Applicant teaches the prediction module predicts that a user desires to use/insert a media file into a document based on what a user types. Examiner understands the claim as predicting desired access to one or more media files whereas the specification teaches predicting the desire to insert a media file.

- 6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

  The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 7. Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 5, recites the limitation "the text" and "the one or more keywords", in line 3-

4. There is insufficient antecedent basis for this limitation in the claim.

#### Conclusion

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan Rayyan whose telephone number is (703) 305-0311. The examiner can normally be reached M-F: 8am - 4:30pm.
